JOSEPHAMAL ANTONY

has successfully completed the online Specialization

Prompt Engineering for Educators

Unlock the transformative potential of AI in education with the "Prompt Engineering for Educators" specialization, tailored specifically for the teaching profession. This program will guide educators through the process of designing precise and effective prompts to engage generative AI tools such as ChatGPT in creating personalized learning experiences. From generating curriculum-relevant material and interactive exercises to providing real-time student feedback and automating administrative tasks, teachers will learn to enrich educational delivery and improve student outcomes.

Jules White

Dr. Jules White
Professor
Department of Computer Science
Vanderbilt University

This certificate attests to the learner's completion of an online program delivered via Coursera. It does not constitute formal enrollment at any university or entity and does not itself grant academic credit, grades, or a degree. Institutions or organizations may, at their discretion, recognize this learning toward their own programs or credentials.
